## **EsthetixMD Spa & Laser Center receives prestigious Diamond Crystal Award**

EsthetixMD Spa & Laser Center, formerly Exhale Spa & Laser Center, has received the newest distinction awarded to CoolSculpting practices, the Diamond Crystal Award. The award is now the highest-level award provided by Zeltiq to CoolSculpting practices and is presented to only a small handful of the top practices nationwide.

"EsthetixMD Spa & Laser Center, already unique within Central Oregon because it offers the only DualSculpting procedure for non-invasive fat reduction to its patients, and has further distinguished itself by qualifying for our Crystal Rewards™ program at the highest Diamond level," said Keith Sullivan, Senior Vice President of Worldwide Sales, Marketing and Clinical, ZELTIQ Aesthetics, Inc. "This distinction is earned by only a handful of the most successful CoolSculpting Centers in the country, and we at the company look forward to a rewarding and long-term relationship with EsthetixMD."

EsthetixMD Spa & Laser Center, located on SW Allen Road, is equipped with multiple treatment devices and has multiple treatment rooms, which allows the practice to treat many patients at the same time. It is also one of the few practices in the nation that offers DualSculpting, two treatment devices utilized on one patient at the same time cutting treatment time in half.

"We are proud to receive CoolSculpting's Diamond Crystal Award," said Dr. Mary James McAllister, medical director at EsthetixMD. "Quality assurance monitoring and validation by ZELTIQ ensures that you are in the top office and being treated by the most experienced CoolSculpting Specialists. It is a testament to our hard working medical staff."
